## HAYS OFF TO PLIFT HOLD UP AND PLANTS

Plans Movie Industrial Center  
That Will Be Model for  
All Business.

## T. G. PATTEN IN CHARGE

Former New York Postmaster

## Will Supervise Condition of Employees.

Hollywood as a model industrial cen-  
ter, a community of approximately 6,000  
employees living comfortably under the  
best possible economic conditions, is the  
goal of Will H. Hays, president of the  
Motion Picture Producers and Distribu-  
tors of America, Inc. Mr. Hays left  
yesterday for California to put the plan  
into effect, much of the preliminary  
work having already been done by  
Thomas G. Patten, formerly Postmaster  
of New York, who was engaged by the  
motion picture industry to lift the condi-  
tions. He will remain in Hollywood  
indefinitely, while Mr. Hays expects to  
return to New York within a few weeks.

Mr. Hays, who has been in New  
York this year for months, the moving  
picture men had been planning to in-  
augurate such activities near Los An-  
geles as would make certain that the  
industry discharged its full duty in help-  
ing to maintain a model industrial com-  
munity not only as to the activities of  
the industry but in its relation to the  
community of which it is a part.

"The fact is," he said, "the working  
conditions in the industry are very good  
now, the spirit of cooperation among the  
workers being much above the average,  
and the industry's activities are already  
a very definite and creditable part of  
the commercial and social fabric."

The plan that is now contemplated,  
Mr. Hays said, will be one of the steps  
in the development of the fullest con-  
fidence and cooperation within the in-  
dustry and between the industry and  
the public. The results will be re-  
flected in many ways, he believes, in-  
cluding the quality of the pictures.

"Something like 75 per cent. of our  
motion picture production in Los An-  
geles county," said Mr. Hays, "is an  
interesting fact not generally known  
that the third largest industry in Los  
Angeles county is food production,  
which spent last year about \$22,000,000,  
with a weekly payroll of \$260,000; the  
second largest industry is petroleum,  
which spent last year \$104,000,000, with  
a weekly payroll of \$235,000."

"The largest industry in Los Angeles  
county is motion pictures, which spent  
last year nearly \$160,000,000, with a  
weekly payroll of \$2,000,000."

This makes, of course, motion picture  
industry of the very first importance  
commercially there, and places upon the  
industry a responsibility to the public,  
commercial and community life of that  
section."

## VALENTINO MUST STAY WITH LASKY COMPANY

Restrained From Acting for  
Any Other Concern.

The Appellate Division of the Supreme  
Court yesterday affirmed an order of  
Justice Isidor Wasservogel restraining  
Rodolph Valentino from acting for  
any other concern than the Lasky com-  
pany, which he is now acting for, from  
rendering services in any form on the  
stage or in motion pictures except under  
the terms of an unexpired contract with  
the Famous Players-Lasky Corporation.

In September, Valentino sought to  
breach the contract, alleging that the com-  
pany had breached it by failing to provide  
publicity according to its terms, and  
making additional complaints. The ten-  
year contract was made in 1917, and  
the temporary injunction which the com-  
pany subsequently won was ordered affirmed  
yesterday.

## TO EXHIBIT WOOD CARVING.

Greenwich Settlement Products at  
Mrs. Whitney's Studio.

The products of the free wood carving  
classes at Greenwich Settlement House  
will be placed on exhibition Monday at  
the studio of Mrs. Harry Payne Whitney,  
8 West Eighth street, it was announced  
yesterday by Victor Salvatore, chairman  
of the Greenwich House art committee.  
The exhibit will show the results of in-  
troducing the shop system into the study  
of art, through which pupils work with  
masters on genuine projects without  
any artificiality of the studio system.

In charge of the exhibit includes Dr. Wren-  
dell T. Bush, Dr. Frank Collins, Mrs.  
Willard B. Force, Miss Elizabeth Irwin,  
Miss Florence N. Levy, Paul Marshall,  
Miss Gisela Richter, Miss Margherita de  
Vecchi, Miss Maude Robinson, Chester

French, Keith Gibran and Mrs. Harry  
Payne Whitney.

## WICKY EXHIBITS ETCHINGS.

Shows Group of Dry Points at  
School of Design.

Harry Wicky, whose etching, "Mid-  
summer Night," was exhibited in the  
winter Academy show and purchased by  
the Metropolitan Museum at the open-  
ing, is showing a group of his dry points  
at the galleries of the School of Design  
and Applied Arts, where he is instructor  
in composition. The show, which is  
open to the public, continues until De-  
cember 22.

Though "Midsummer Night," which is  
a study of the Washington Square  
area, seems to have the place of honor in  
the exhibit, the dry points of the Hudson  
River Palisades in various phases of  
afternoon light are also interesting, as  
are a number of other etchings, many of  
any etching, needle, and the treatment  
throughout stamp this first exhibition  
of Mr. Wicky as the work of one who  
will undoubtedly play an important part  
in future etching exhibitions.

## AMERICAN ANTIQUES SHOW.

Rare Capbons and Chairs in  
Offerman Collection.

Lovers of early American antiques  
will take pleasure in the collection of  
Theodore Offerman, now on exhibition  
in the American Art Association galleries  
preparatory to a sale beginning next  
Tuesday. It contains much that is un-  
usual, and deserves to be studied both  
by craftsmen and artists.

It is seldom that one has the op-  
portunity to see such beautiful Windsor  
armchairs as Mr. Offerman's. They have  
been hung upon the walls of the gal-  
eries, just as though they were works  
of art, and many of them are extra-  
ordinary in design and workmanship.  
The writing desks in the collection are  
especially distinguished, although de-  
parting only slightly from the approved  
convention of a writing desk. One has a  
simple in design and suggest the his-  
torical background.

With Mr. Offerman's collection is  
shown a group of things belonging to  
an anonymous southern colonist, which  
also contains much fine old Ameri-  
can furniture, and is especially rich in  
old silver. There are all sorts of glass  
beakers, candlesticks, crockery, em-  
bossed tea caddies and trays; each inter-  
esting in design and suggesting the his-  
torical background.
